Subject: Re: CAG Tech Meetings

Hello everyone,
We will hold the next CAG Tech meeting on February 2, 2016. As of now, I'd like to focus on groundwater issues and get a reaction from the EPA about the peer reviewed study regarding radioactive lead.

Brad or Brad, I'd like John Schumacker to be available for the meeting as well as we will focus on groundwater.

When: February 2, 2016 at 6PM
Where: 3221 McKelvey Rd, Bridgeton, MO 63044

Members of the CAG tech committee, please send me any questions you have for Region 7 by the end of the week so I can submit them as a package and hopefully we can talk about those at the meeting as well.

Best regards,
Ed

Happy New Year everyone,
I'm working on a schedule for CAG Tech meetings to start the year. Please let me know if anyone has a problem with the following dates for January & February?

All meetings will be scheduled for 6PM CST.

I'd like to schedule one meeting before the 2/8 CAG meeting. I'd like to focus on groundwater & the Bob Alvarez report (see attached). Here are the possible dates:

January 25 or 26, 2016
February 1 or 2, 2016

I'd like to schedule one meeting after the 2/8 CAG meeting. I'd like this meeting to focus on the isolation barrier & ATSDR health assessment (and outstanding questions). Here are the possible dates:

February 22 or 23, 2016
March 1, 2016

Please only respond letting me know that all dates work OR respond with which dates do not work.

Proposed agendas are subject to change, for example, if the EPA's barrier plan is available before the next CAG meeting, that will likely take the place of discussing the Alvarez report. As for the groundwater discussion, I'd like John Schumacker to be available if possible for the discussion on groundwater.

Thanks,
Ed
